### **DETAILED ACTION**

1. Claims 2-15, 28, 31-33, and 50-65 are under consideration in this Office Action.
2. The rejection of claims 2-15, 28, 31-33, and 50-65 under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement has been withdrawn in view of the claim amendment and arguments filed 09/08/2010.

### **Double Patenting**

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the “right to exclude” granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 2-15, 28, 31-33, and 50-65 stand rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-17 of U.S. Patent No. 7,291,489; and claims 1-34 of U.S. Patent No. 7,244,593. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the instant

application are fully encompassed and anticipated by each of the claims of U.S. Patent Nos. 7,291,489 and 7,244,593, where the specifications of each of the stated patents fully describe, disclose, and provide support for the claims of the instant application.

Applicants' statement filed 09/08/2010 that applicants will consider filing a terminal disclaimer is acknowledged. However, until the terminal disclaimer is filed, the claims stand rejected for reasons of record.

5. Claims 2-15, 28, 31-33, and 50-65 stand provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 2-6, 11-26, 29-32, 35-40 of copending Application No. 11/879,143. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the instant application are fully encompassed and anticipated by claims 2-6, 11-26, 29-32, 35-40 copending Application No. 11/682,103, where the specification of copending Application No. 11/879,143 fully describe, disclose, and provide support for the claims of the instant application.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Applicants' statement filed 09/08/2010 that applicants will consider filing a terminal disclaimer is acknowledged. However, until the terminal disclaimer is filed, the claims stand rejected for reasons of record.

### Conclusion

6. No claim is allowed.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
